# ABOUT US

## DITROLIC SOLAR IS MALAYSIA'S LEADING FULL SERVICE SOLAR PROVIDER

Ditrolic Solar is the nation's leading full-service solar provider for residential, commercial, industrial and large scale project owner. From a single point of contact, we provide solar PV system design, consultation, installation and monitoring services.

## PIONEERING THE SOLAR INDUSTRY

Leveraging on Ditrolic Sdn. Bhd. 20 years experience in the Electrical & Mechanical system installation and turnkey design as well as its core of skilled and experienced workforce , we are able to provide turnkey solar energy solution to its client through feasibility studies, investment analyses, due diligence, and budget preparation to equipment specification, engineering, procurement, project management and site supervision.

## SOLAR COMPANY WITH A PURPOSE

We understand that the environmental impact of energy production is one of the greatest challenges that our planet will face in the near future and we envisage solar energy to replace traditional fossil fuel as major energy source achieving reduction in global CO<sub>2</sub> emission.

## BUILT TO SCALE REGIONALLY

The company has obtained the accreditation from Malaysia Energy Center (PTM) under the Ministry of Energy, Green Technology and Water as an Approved Photovoltaic Service Provider to undertake PV projects in Malaysia. We forms strategic partnership with PV manufacturers and overseas PV system integrator to undertake high value, high impact PV project. In 2009, our Asia Pacific branch was setup in Singapore to serve the developing market of South East & South Asia market.

# WE'RE WITH YOU

# EACH STEP OF THE WAY

START
